Booster Pads

McKESSON

McKesson booster pads help provide supplemental absorbency when used with another incontinence garment, helping extend wear time and improve overall dryness. The flow-through design absorbs initial fluid and transfers excess into the primary product to maintain performance. Constructed with OEKO-TEX® STANDARD 100 certified materials, these pads help support skin safety and quality standards, while a soft, clothlike backsheet and secure adhesive strip help promote discreet, reliable wear. Ideal for overnight use, travel, or situations where product changes may be less frequent.

Features and Benefits

FLOW-THROUGH DESIGN: Absorbs initial fluid and passes excess into the primary garment to help support extended product use

ENHANCED ABSORBENCY: Boosts overall absorbency of the primary incontinence product to help manage higher fluid volumes

ODOR PREVENTION TECHNOLOGY: Helps prevent odors before they begin for improved freshness during wear

DRYNESS LAYER: Turns liquid into gel and locks away wetness within seconds to help keep skin drier

SOFT PH CONTROL TOPSHEET: Intended for single-patient use to support hygienic care practices

CLOTHLIKE BACKSHEET: Soft, gentle, and discreet material helps enhance comfort and wearability

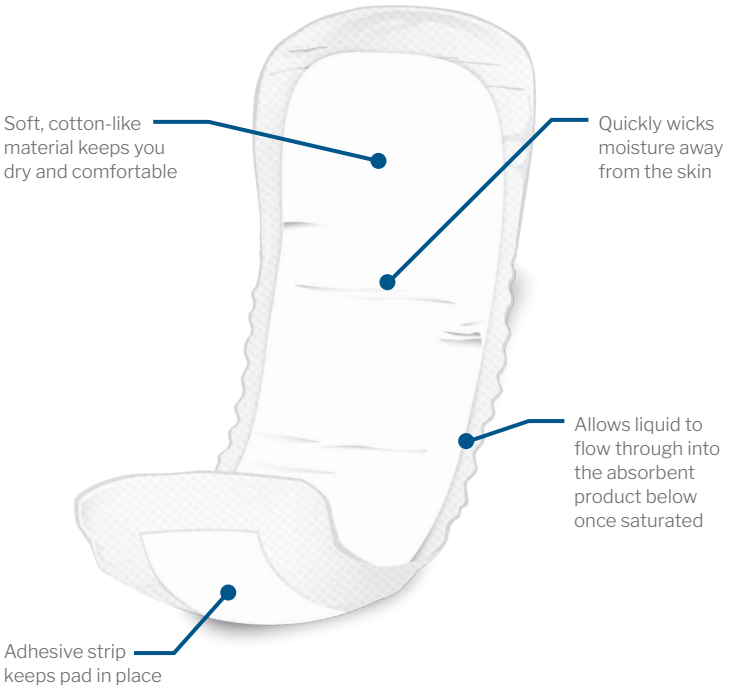
SECURE ADHESIVE STRIP: Helps keep the pad in place within the primary garment for consistent positioning

LEAKAGE PROTECTION: Helps prevent leaks from the top, sides, and leg openings for added confidence

EXTENDED WEAR TIME: Ideal for overnight use, travel, or limited access situations where changes are less frequent

COST-EFFECTIVE SOLUTION: Extends the usability of the primary garment, reducing the need for full product changes

NOT MADE WITH NATURAL RUBBER LATEX



TO USE:
