Mead Johnson Nutrition Finished Food Products

SAFETY INFORMATION SHEET

The OSHA Hazard Communication Standard, 29 CFR 1910.1200, is for the purpose of ensuring that the hazards of all chemicals produced or imported in the United States are classified, and that information concerning the classified hazards is transmitted to employers and employees. Mead Johnson Finished Food Products are exempt from the requirements of the Hazard Communication standard under 29 CFR 1910.1200(b)(5)(iii) which explicitly states that the section does not require labeling of "Any food, food additive, color additive, drug, cosmetic, or medical or veterinary device or product, including materials intended for use as ingredients in such products (*e.g.* flavors and fragrances), as such terms are defined in the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 *et seq.*) or the Virus-Serum-Toxin Act of 1913 (21 U.S.C.151 *et seq.*), and regulations issued under those Acts, when they are subject to the labeling requirements under those Acts by either the Food and Drug Administration or the Department of Agriculture;". As such, a Safety Data Sheet is not required and thus not available for the finished food products listed below.

Detailed product information is available for these products at the following website: http://www.meadjohnson.com.

For product information questions, please contact Mead Johnson at SDSQuestions@mjn.com or (812) 429-5000.
