GREER

MATERIAL SAFETY DATA SHEET
STERILE DILUENT FOR ALLERGENIC EXTRACT
(See also INSTRUCTIONS FOR USE Package Insert for marketed extracts)

Manufacturer: **Greer Laboratories**
P.O. Box 800
639 NuWay Circle NE
Lenoir, NC 28645

Emergency Telephone Number: (828) 754-5327

Product Name: Sterile Diluent for Allergenic Extract – Normal Saline, with additional description as labeled. No CAS number applies.

Chemical Family: Salt solution with an anti-microbial preservative.

Ingredients:

0.9% Sodium Chloride, USP
0.45% Liquified phenol, 89% USP
Water for Injection (WFI), USP
Adjusted pH with Sodium Hydroxide or Hydrochloric Acid as needed

Physical Characteristics: Pyrogen-free, clear, colorless solution, with a slight odor of phenol. This product is supplied in a range of vial sizes containing 100mL volume.

Fire and Explosion Hazard: None

Health Hazard: There should be no effect on intact skin, but accidental injection, ingestion, inhalation, eye contact, or broken skin contact may cause irritation. The severity depends on the exposure and the individual's tolerance to the solution.

First Aid Procedures: General hygienic practices suffice for normal contact with the product. Immediate washing with copious amounts of water is recommended for eye or broken skin contact.

Stability and Conditions to Avoid: No hazardous conditions.
