Open Suction Catheter & Trays

McKesson

McKesson open suction catheter is designed to provide access to the respiratory tract for secretion removal from the trachea and bronchial region. This catheter is DEHP-free and features color-coded sizing that aligns with ISO standards for identification. It includes a chimney (thumb) valve for high airflow and continuous suction, and its flexible tubing is suitable for varied application demands. The catheter features an atraumatic tip and a non-abrasive tube surface to facilitate insertion, along with easy-to-read depth markings and tubing that provides frictional resistance. McKesson open suction catheter kits are available in paper and rigid trays.

Features and Benefits

Airway Secretion Removal
For the removal of secretion from the trachea and bronchial region

Comfortable Tubing Material
Soft kink-resistant DEHP-free PVC tubing with maximum patient comfort

Size Identification
Color-coding transparent connectors for the identification of the sizes

User-Friendly Control
Thumb control for easy handling

High-Efficiency Suction
High airflow and efficient continuous suction

Flexible Tubing Performance
Tubing flexibility level meets application requirements

Gentle Insertion Design
Easy insertion/Atraumatic DeLee tip and non-abrasive tube surface

Clear Depth Markings
Easy to read depth markings

Precise Graduation
Graduation marks after every cm

Sterile

Not Made with Natural Rubber Latex

Open Suction Catheter Kit with Paper Tray

McKESSON

Features and Benefits

Chemical-resistant, ambidextrous nitrile gloves for greater protection, and can be used in either hand

Thickness - 0.08mm Average weight - 4.5 grams

Nitrile gloves are pre-folded for sterile donning

Includes a paper pop-up tray, which can be used for pouring and holding sterile saline or other solutions needed for suctioning without spilling

The paper pop-up tray can be directly used on the sterile field

Open Suction Catheter Kit with Rigid Tray

McKESSON

Features and Benefits

Chemical-resistant, ambidextrous nitrile gloves for greater protection, and can be used in either hand

Thickness - 0.08mm Average weight - 4.5 grams

Nitrile gloves are pre-folded for sterile donning

Includes a rigid tray which can be used for pouring and holding sterile saline or other solutions needed for suctioning without spilling

The rigid tray can help maintain a sterile field by providing a dedicated surface for placing sterile items
