Notification of Part Number Changes for Hemostasis Products

Siemens Healthcare Diagnostics Inc.

April 2024

Dear Siemens Healthineers Hemostasis Customer,

We would like to inform you about an important update regarding our hemostasis portfolio.

As you will be aware, Siemens Healthineers and Sysmex currently have an agreement related to selling our combined, wide hemostasis testing portfolio.

Effective April 1, 2024, we will be executing a new agreement with Sysmex. Going forward, Siemens Healthineers will be independently distributing the combined, wide hemostasis testing portfolio to laboratories under our own brand.

As a result, our hemostasis instruments and their associated consumables will have new part numbers and will be labeled “Siemens Healthineers.”

Table 1. **Product Ordering Information**

Material Name	Current Part Number	New Part Number
CS-5100	10709128	11694245
CS-2500	11239235	11694248
CA-660	10712039	11694252
CA-620	10712040	11694251
CA CLEAN I 50ml	10445689	10874004
CUVETTE SU-40	10445687	10874002
Reagent Cap L	10628683	10874021
Trash Box Liner CA6	10873637	10874014
Trash Bag CS5	10710024	10874013
SLD Mini Cup	10709524	10874012
CA Clean II 45ml	10708787	10874011
Reagent Cap S	10628684	10874010
TRASH BOX LINER CS2	10628682	10874009
CUVETTE SUC-400A	10488059	10874008
SB Cuvette	10481761	10874007
CA CALS	10445861	10874006
CA CLEAN II 5L	10445690	10874005
CA CLEAN II 500 ML	10445688	10874003

What will **not** change is that Siemens Healthineers:

- Will continue to sell, service, and support our hemostasis systems.
- Will continue to invest in the development of new assays to improve patient care.
- Will continue to utilize our robust hemostasis supply chain for the undisrupted supply of products.
- Will continue to provide optimal support, so you and your lab can provide the best patient care, control your healthcare costs, and retain your staff.
- Siemens Healthineers—known for our innovative reagent development, reagent supply chain and customer support—continues to be your trusted hemostasis partner.

What is the reason for the change in the agreement?

- Building on a long partnership, Siemens Healthineers and Sysmex have made a change to the agreement.
- Going forward, Siemens Healthineers will sell the Sysmex instruments under our own brand as "Siemens Healthineers."

How does this part number change impact my laboratory?

- When placing an order for a material listed on the part number transition table, replace the current part number with the new part number.

Will this impact my standing orders?

- No. All current standing orders will be updated to the products with the new part number as the old part numbers are phased out. We expect to have this completed by May 1, 2024.

Who should I notify in my organization?

- We advise that the department or individual responsible for ordering/payment of your Siemens Healthineers consumables should be notified. Please request them to use the new part numbers going forward.

If you need further information, please contact your local Siemens Healthineers representative.

Thank you for trusting Siemens Healthineers to be your partner in hemostasis testing.

Sincerely,

Ashley Sanchez
