Re: MSDS/SDS for Lessina® (levonorgestrel and ethinyl estradiol tablets)

The purpose of the Material Safety Data Sheet (MSDS), also referred to as a Safety Data Sheet or SDS, is to communicate information concerning hazards and appropriate protective measures to employees that handle the hazardous material as part of performing their job. The (OSHA's) Hazard Communication Standard 29 CFR 1910.1200 does not require a MSDS to be provided for Lessina® (levonorgestrel and ethinyl estradiol tablets) since the product is supplied in a solid form for direct administration to the patient.

Details and information regarding this product may be found in the prescribing information/package insert which is available at www.TevaUSA.com. Should you have additional questions regarding this product please contact Medical Affairs at one of the following numbers:

- 888-838-2872 (ask for Medical Affairs)
- 800-222-0190 (select Option 1)
