CONSULT®

McKESSON

TRICHOMONAS RAPID TEST

The Consult® trichomonas rapid test is a CLIA-waived, rapid immunochromatographic assay that qualitatively detects *Trichomonas vaginalis* antigens from vaginal swab specimens or saline solution prepared from vaginal wet mounts. Delivering results in approximately 10 minutes, the test supports timely clinical decision-making with a simple dipstick procedure and easy-to-interpret visual results. By detecting antigens directly without requiring live organisms, it provides a convenient testing option that can help improve workflow efficiency while supporting confidence in the evaluation of patients with symptoms of vaginosis, vaginitis, or suspected exposure to *Trichomonas vaginalis*.

FEATURES AND BENEFITS

RAPID 10-MINUTE RESULTS

- Provides actionable results in approximately 10 minutes to support timely patient evaluation and treatment decisions

CLIA-WAIVED TESTING

- The only CLIA-waived rapid test for the detection of Trichomoniasis

DIRECT ANTIGEN DETECTION

- Detects *Trichomonas vaginalis* antigens directly, eliminating the need for viable organisms and reducing reliance on culture-based methods

SIMPLE DIPSTICK PROCEDURE

- Combines straightforward sample preparation and testing steps to help streamline workflow and reduce procedural complexity

EASY-TO-READ RESULTS

- Distinct red and blue line indicators enable quick visual interpretation and help support testing confidence

FLEXIBLE SAMPLE OPTIONS

- Can be used with vaginal swab specimens or saline solution remaining from vaginal wet mount preparation, providing added testing flexibility

HIGH CLINICAL PERFORMANCE

- Demonstrated 99% specificity and 95% overall agreement versus a composite reference standard, supporting confidence in test results

COMPLETE TEST KIT

- Includes test sticks, sterile swabs, test tubes, sample buffer, sample buffer dropper top, positive control swab, workstation, and instructions for use to support testing readiness

Not Made With Natural Rubber Latex

CONTENTS

(25) Test sticks
(25) Sterile swabs
(25) Test tubes
(1) 25 mL Sample buffer (saline buffer with 0.01% sodium azide)
(1) Sample buffer dropper top
(1) Positive control swab (contains sodium azide)
(1) Instructions for use
(1) Workstation
