CONSULT®
RAPID COVID-19 ANTIGEN TEST

McKESSON

The Consult® rapid COVID-19 antigen test is a CLIA-waived, point-of-care diagnostic test that provides qualitative detection of SARS-CoV-2 antigens from anterior nasal swab specimens. With results available in 15 minutes, the test supports timely clinical decision-making and routine respiratory screening in healthcare settings. As part of the McKesson respiratory testing portfolio, it helps healthcare providers expand access to COVID-19 testing alongside other respiratory diagnostic solutions.

FEATURES AND BENEFITS

Results in 15 minutes
- Provides results in as little as 15 minutes to support timely patient assessment and clinical decision-making

High Negative Percent Agreement
- Demonstrated 99.7% Negative Percent Agreement versus an RT-PCR composite comparator method, helping support confidence in negative results as part of the overall clinical evaluation

Strong Positive Percent Agreement
- Demonstrated 85.4% Positive Percent Agreement versus an RT-PCR composite comparator method, helping identify COVID-19 infections in symptomatic patients

Anterior Nasal Swab Collection
- Uses a familiar anterior nasal swab specimen to simplify sample collection and testing workflows

Complete Testing Kit
- Includes test cassettes, sterile swabs, pre-filled buffer tubes, tube holders, instructions for use, and a quick reference guide for efficient test administration

External Quality Controls Available
- Supports quality assurance procedures with compatible positive and negative control swabs

24-Month Shelf Life
- Helps reduce product waste with a 24-month shelf life from date of manufacture

Not Made With Natural Rubber Latex
