C-Fusor® Pressure Infusor

A clear solution for pressure infusion, transfusion and flushing

medex™

C-Fusor® Pressure Infusor

The Medex® C-Fusor® reusable pressure infusor is uniquely designed for rapid set-up and easy bag replacement. Straps made of VELCRO® brand material hold the side panels of the infusor to the I.V. container and can be opened quickly when the next bag is needed.

Maximum fluid delivery

Pressure is evenly applied to the bag surface, helping send maximum volume to the I.V. set

Secure hold

A reinforced loop secures C-Fusor® to the ram's horn while a robust hanger holds the bag in place

Unobstructed visibility

Clear panels permit checking bag volume at a glance

Puncture resistant

Durable materials and robust construction withstand the rigors of frequent use and potential hazards

Easy to read

Pressure gauge with simple display and clear markings can be read at a distance

Easy to clean

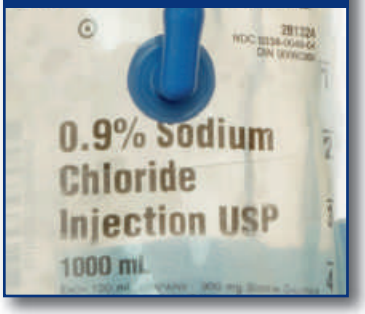

Surfaces are smooth and panels lay flat for easy cleaning

The C-Fusor® reusable pressure infusor is available in two sizes – 500ml and 1000ml – and accommodates 2 and 3 liter fluid bags when fitted with an extension.

Reinforced Hangers

Clear Material

Large Pressure Gauge

Ordering Information

Infusors and Extension

MX4805	C-Fusor® pressure infusor - 500 ml
MX4810	C-Fusor® pressure infusor - 1000 ml
