CENTURY PHARMACEUTICALS, INC.

Substitute

Material Safety Data Sheet

For

Dakin's Solution products
(including Di-Dak-Sol)

Products manufactured by Century contain:
Sodium Hypochlorite (0.50% or less)

Dakin's Solution is not considered a hazardous substance[1];
therefore a Material Safety Data Sheet is neither required nor available.
Please accept this information sheet as a substitute.

Dakin's products are topical, over-the-counter (OTC) human drug products, which are generally recognized as safe and effective.
Please follow all labeled instructions.
Please contact Century for further information.

The Active Ingredients in Dakin's products is Sodium Hypochlorite. The Inactive Ingredients are Purified Water, Sodium Bicarbonate (buffer), and Sodium Hydroxide.

Dakin's Solution products have a pH of approximately 10.

Do NOT take internally - FOR EXTERNAL USE ONLY.

1. Dakin's products are not listed as Hazardous Chemicals, therefore they are not subject to OSHA's "Right to Know" Hazardous Chemicals requirements, including a Material Safety Data Sheet. (29 Code of Federal Regulations 1910.1200, Subpart Z)

Also, Dakin's products are not listed as Hazardous Chemicals in Department of Transportation regulations. (49 CFR 172.101)
